

Appl. No. 10/033,663
Amdt. Dated Mar. 1, 2004
Reply to Office Action of N v. 28, 2003

Amendments to the Specification:

Please replace title with "MODULAR JACK WITH REPLACEABLE COMPONENT"

Please replace abstract with the following amendment:

A modular jack (1) assembled on a mother board ~~comprises~~ includes an insulative housing (2) with a receiving space (25, 26), a ~~plurality~~ number of terminals (3, 4) received in the receiving space, and an electronic component (5, 6) assembled in the insulative housing for eliminating noise. The electronic component comprises a replaceable component, such as magnetic coil, a ~~plurality~~ number of upper contacts (501, 601) for connecting with corresponding terminals and a ~~plurality~~ number of lower contacts (503, 603) for connecting with the mother board.
